AIM for Success

Our health care delivery system is at a crossroads between balancing service excellence and profitability. Performance-based incentives are expected to continue—and expand. However, creating value encompasses much more than reimbursement, and is an organizational imperative across all points of the health care continuum. So how will you **AIM** for excellence and success in this dynamic environment? Vision to Value (V2V) helps you become **ADEPTSM** at managing transformational change. Our three-step process leads you toward true sustainability.

Assessment. Our **AdvantageSM** programs offer quantitative and qualitative analysis to find gaps in profitability, outcomes, and governance. We find ways to enhance your success. Across a broad spectrum, from strategy, to clinical operations, and finance, V2V will improve your business.

Implementation. The V2V team implements sustainable, value-driven clinical, cultural and process improvements in health care organizations throughout the country. Our team will assist yours via project management or serve as your external value management resource to fully implement solutions customized for your organization.

Monitoring and Mentoring. V2V offers an unrivaled opportunity that ensures sustainability of your transformational changes to enhance practice and network performance. V2V can also assist both new and experienced leadership in professional career growth via on-site or remote training. V2V mentors the next generation of health care leaders and strengthens the skills of seasoned professionals by providing a dedicated mentor to advise management teams on the challenges faced by practice management.

V2V can reduce costs, improve quality, and recreate your brand identity amid the new realities of the health care industry's transformation. Our team offers trusted advisors from the hospital and medical practice arena with the sole focus of creating transformational change in health care. We help you find opportunities to enhance success across your organization—and act on them!

We focus on value, so you can focus on care.
