## Strategic Advantage<sup>SM</sup>

**Whether a medical practice, independent hospital, or health system, we can help you become ADEPT<sup>SM</sup> at the business of healthcare and achieve your organizations vision of success.** V2V's leadership services in both governance and organizational dynamics provide intervention and guidance to effectively transform your management and leadership practices.

**Strategic Planning.** Our team implements value-driven clinical, cultural, and process improvements in healthcare organizations across the country. V2V helps you deploy sustainable solutions customized for your organization. We introduce the tools necessary to measure success, as well as the processes to facilitate optimal communication throughout the organization. Our goal is to ensure the effectiveness of your healthcare business for years to come.

**Interim Management.** We are facing a radical sea change in healthcare. Organizations need to respond quickly and efficiently and this is especially true when implementing transformational improvements amid a vacant leadership position. To ensure organizational stability and effectiveness, an increasing number of practice groups and health systems are turning to our interim management program for an immediate solution.

**Succession Planning.** It's no surprise that simultaneous to the transformation in healthcare, your senior leaders are possibly addressing the end of their careers, as well. Baby boomers are reaching retirement age and skillful succession planning is needed now, more than ever. Unfortunately, it is also a concept and tradition lost in recent years. Knowing your organization's value, brand and vision for the future, we can help make succession planning a truly successful transition.

We deliver immediate support, maintain momentum and contribute fresh perspective to your organization. V2V's positive approach to individual and team motivation is coupled with an awareness of the organizational environment and effective use of proven leadership methods and tools.

*We focus on value, so you can focus on care.*
