

# ONBOARDING Advantage<sup>SM</sup>

## Payer Enrollment Services

Creating a successful payer enrollment work flow ensures a solid foundation for practitioner payer enrollment, minimizing delays in reimbursement, and securing revenue cycle success. Effective physician onboarding is a process that depends on an organized approach to the many details that need to be addressed. This requires a synergy and expertise level that we can bring to your organization.

### We are your resource for:

- State License Applications
- New NPI Registration
- New Tax Identification Numbers
- DEA Registration
- PECOS Registration
- CAQH Management
- Unique State Portals
- Payer Applications – Commercial and Government
- EDI - Submitter ID numbers
- Re-Validations

**When the recruitment process begins.** V2V gives specific attention to the myriad of details required to optimize this process and assume a lead role with regard to completing and facilitating the required steps. We utilize technology to manage our database of providers, the timelines for submission and follow-up, and online tools for capturing applicant signatures.

**Customized project management checklist.** We facilitate every aspect of the payer enrollment process. Our work ensures the provider is ready to see patients and bill for services as quickly as possible. Our experience includes all physician and provider medical specialties, behavioral health and therapy providers covering most organizational types from independent to facility based providers.

**V2V facilitates success.** Our goal is to ease this transition across the continuum. As an advisory company, first and foremost, our highly experienced team is a resource for new entity applications, group expansion, mergers, new service lines, and contracting strategies.

Lost productivity, slow credentialing processes, and an inability to integrate a new physician or specialty provider into your existing systems, are symptoms of failed physician onboarding. Our team transforms the physician onboarding experience, helping you become further **ADEPT<sup>SM</sup>** at the business of healthcare.
